1. Digital Vehicle Inspection (DVI)

Test all 5 new DVI capabilities

TC-001 Email Inspection Report to CustomerOWNER /
MANAGER

1. Log in as owner at redlined1.com
2. Navigate to Inspections in the sidebar
3. Open any existing completed inspection that has a customer email on file
4. Click the "Email Report" button in the action bar
5. Wait for the button to show "...Sending" then return to normal

' **Expected:** Toast notification: "Report sent to [email]". Customer receives branded HTML email with Pass/Attention/Fail checklist, summary badges, and shop logo.

Tester:

Date:

Pass & Fail & Notes:

TC-002 Email Report — No Email on FileOWNER /
MANAGER

1. Open an inspection where Customer Email field is empty
2. Observe the "Email Report" button

' **Expected:** Button appears grayed out (45% opacity) and is disabled. Hovering shows tooltip: "No customer email on file".

Tester:

Date:

Pass & Fail & Notes:

TC-003 Generate Shareable Customer LinkOWNER /
MANAGER

1. Open any inspection in the detail view
2. Click "Share Link" in the action bar
3. Observe the URL bar that appears below the action bar

4. Click "Copy" button
5. Open a new browser tab (or private/incognito window — no login)
6. Paste the URL and press Enter

' **Expected**Public inspection page loads without login. Shows vehicle info, summary badges (Fail/Attention/Pass counts), full checklist with color dots, and a Print button. Photos display as thumbnails.

Tester:

Date:

Pass & Fail & Notes:

TC-004 Share Link — Same Inspection Returns Same URL

OWNER /
MANAGER

1. Click "Ø=Ý Share Link" on the same inspection a second time
2. Compare the generated URL to the first one

' **Expected**Identical URL returned both times (token persists in DB, not regenerated).

Tester:

Date:

Pass & Fail & Notes:

TC-005 Start DVI from Job Card

OWNER /
MANAGER

1. Navigate to Job Cards
2. Click on any active job card to open its detail panel
3. Click "Ø=Ý Start DVI !" button
4. Observe the Inspections form that opens

' **Expected**Inspections module opens with a new DVI form pre-filled: Customer Name from the job card, Vehicle from the job card, Job Card ID in the jobCardId field, and a new inspection number auto-generated.

Tester:

Date:

Pass & Fail & Notes:

TC-006 Technician Dropdown in DVI Form

OWNER / MANAGER

1.

Go to Inspections !' click "+ New DVI"

2.

Observe the Technician field

' Expected

If the shop has team members (technician/advisor/manager roles), the field shows a dropdown listing their emails and roles. If no members exist, it shows a plain text input.

Tester:

Date:

Pass & Fail & Notes:

TC-007 Custom Inspection Template — Add Item

OWNER

1.

Go to Settings !' scroll to "DVI Inspection Template" panel

2.

Type "Exhaust" in the Category field and "Exhaust pipe condition" in the Item Name field

3.

Click "+ Add Item"

4.

Click "Save Template"

5.

Navigate to Inspections !' click "+ New DVI"

6.

Scroll to the Exhaust category in the checklist

' Expected

New item "Exhaust pipe condition" appears under an "Exhaust" category in the DVI checklist form.

Tester:

Date:

Pass & Fail & Notes:

TC-008 Custom Template — Remove Item

OWNER

1. Go to Settings !' DVI Inspection Template
2. Click "Remove" next to any existing item (e.g. "Wiper blades")
3. Click "Save Template"
4. Create a new DVI and verify the removed item is gone

' **Expected**Removed item no longer appears in new DVI checklists. Existing saved inspections are unaffected.

Tester:

Date:

Pass & Fail & Notes:

TC-009 Custom Template — Reset to Default

OWNER

1. Go to Settings !' DVI Inspection Template
2. Click "Reset to Default"
3. Click "Save Template"

' **Expected**Template reverts to the original 26-item checklist across 6 categories (Brakes, Tires, Fluids, Lights, Under Hood, Suspension).

Tester:

Date:

Pass & Fail & Notes:

2. Role Permissions (Owner-Configurable)

verify owner can restrict module access per role

TC-010 Configure Manager Role Permissions

OWNER

1. Go to Settings ! "Role Permissions" panel
2. Select the Manager tab
3. Uncheck "Payments" and "Reports"
4. Click "Save Role Permissions"

5. Log out, log in as a Manager account

' **Expected** Manager sidebar does NOT show Payments or Reports modules. All other allowed modules are visible.

Tester:

Date:

Pass & Fail & Notes:

TC-011 Configure Technician Role Permissions

OWNER

1. Settings ! Role Permissions ! Technician tab
2. Verify only: Dashboard, Job Cards, Inspections, Repair Orders, Parts are checked
3. Save Role Permissions
4. Log in as technician role

' **Expected** Technician sees exactly: Dashboard, Job Cards, Inspections, Repair Orders, Parts, Help & Manual, Sign Out. No other modules visible.

Tester:

Date:

Pass & Fail & Notes:

TC-012 Reset Role to Default

OWNER

1. Settings !' Role Permissions !' any role tab
2. Click "Reset to Default"

' **Expected** Checkboxes revert to the default module set for that role without saving. User must still click Save to persist.

Tester:

Date:

Pass & Fail & Notes:

Verify financial data is hidden from technician role

TC-013 Dashboard — No Revenue Data

TECHNICIAN

1. Log in as a technician-role account
2. Navigate to Dashboard

' **Expected** Revenue KPI row is hidden (Total Revenue, Outstanding, Today's Revenue, Draft Invoices). Revenue chart and Invoice Status panels are hidden. Recent Invoices section is hidden.

Tester:

Date:

Pass & Fail & Notes:

TC-014 Repair Orders — No Dollar Amounts

TECHNICIAN

1. Log in as technician, navigate to Repair Orders
2. Open any repair order

' **Expected** No dollar amounts visible anywhere: no labor cost, no parts cost, no total. "Create Invoice" button is absent. Charges section is hidden in both detail view and print preview.

Tester:

Date:

Pass & Fail & Notes:

TC-015 Header — No Invoice Buttons

TECHNICIAN

1.

Log in as technician

2.

Check the top header area

' **Expected**!"New Job Card" and "Create Invoice" buttons are not present in the header for technician role.

Tester:

Date:

Pass & Fail & Notes:

TC-016 Parts — No Cost/Retail/Margin

TECHNICIAN

1.

Log in as technician, navigate to Parts

2.

View the stats bar, parts table, and part detail panel

3.

Open the Add/Edit form

' **Expected**Cost Value, Retail Value, and Margin stat cards are hidden. Cost and Retail columns absent from table. Detail panel shows no Cost/Retail/Margin fields. Form has no Cost or Retail inputs. Margin preview is hidden. Reorder value total is hidden.

Tester:

Date:

Pass & Fail & Notes:

4. Team Members & Invite Flow

verify staff management and multi-location invite

TC-017 Team Members Panel Shows Real Data

OWNER

1. Go to Settings !' Login & Roles (or Access module)
2. Scroll to "Team Members" panel

' **Expected**All shop_users for the active location are listed with correct email and role. No "Shop ID:" debug text visible in the panel hint.

Tester:

Date:

Pass & Fail & Notes:

TC-018 Invite New Staff Member

OWNER

1. Access module !' Invite User panel
2. Enter a new staff email, select role "Technician", click "Send Invite"
3. Check the invited email inbox

' **Expected**Email received with D1 Imports branding, temp password in monospace box, login URL, and role label. Staff added to ALL shop locations owned by the same owner (check shop_users in Supabase).

Tester:

Date:

Pass & Fail & Notes:

TC-019 Invited Staff Login & Access

NEW STAFF

1. Use credentials from invite email to log in at redlined1.com
2. Observe which modules are visible in the sidebar

' **Expected**Staff member logs in and sees modules matching their assigned role permissions. Dashboard is always visible.

Tester:

Date:

Pass & Fail & Notes:

TC-020 Change Password — Success Flow

ALL ROLES

1. Log in with any account (owner, manager, advisor, or technician)
2. Go to Settings
3. Scroll to the "Change Password" panel (first panel on the page)
4. Enter the current password in "Current Password"
5. Enter a new password (8+ chars) in "New Password"
6. Repeat it in "Confirm New Password"
7. Click "Update Password"
8. Log out and log back in with the new password

' **Expected**Success confirmation (green banner) appears. Old password no longer works. New password logs in successfully.

Tester:

Date:

Pass & Fail & Notes:

TC-021 Change Password — Wrong Current Password

ALL ROLES

1. Go to Settings !' Change Password
2. Type an incorrect current password
3. Fill in valid new + confirm passwords
4. Click "Update Password"

' **Expected**Red error message: "Current password is incorrect." Password is NOT changed.

Tester:

Date:

Pass & Fail & Notes:

TC-022 Change Password — Mismatch

ALL ROLES

1. Go to Settings !' Change Password
2. Fill current password correctly
3. Type different values in New Password and Confirm New Password fields
4. Observe the Confirm field border color
5. Click "Update Password"

' **Expected**Confirm field shows a red border while values differ. On submit: error "Passwords do not match." Password unchanged.

Tester:

Date:

Pass & Fail & Notes:

TC-023 Change Password — Too Short

ALL ROLES

1. Go to Settings !' Change Password
2. Enter a new password shorter than 8 characters
3. Click "Update Password"

' **Expected**Error: "Password must be at least 8 characters." Blocked before any API call.

Tester:

Date:

Pass & Fail & Notes:

6. Sidebar Badge Counts

verify all counts reflect real DB data per location

TC-024 Appointments Badge Reflects Real Count

OWNER

1. Note the number badge next to "Appointments" in the sidebar
2. Navigate to Appointments and count the rows displayed

' **Expected** Sidebar badge matches the actual number of appointment records for the active shop location. No longer shows hardcoded "9".

Tester:

Date:

Pass & Fail & Notes:

TC-025 Technicians Badge Reflects Real Count

OWNER

1. Note the number next to "Technicians" in the sidebar
2. Navigate to Technicians ! Roster tab and count active technicians

' **Expected** Sidebar badge matches roster count for the active location. No longer shows hardcoded "3".

Tester:

Date:

Pass & Fail & Notes:

TC-026 Location Switch Updates All Badges

OWNER

1. Note badge counts at Location 1
2. Switch to Location 2 using the shop switcher dropdown
3. Observe badge numbers across the sidebar

' **Expected** All badge counts update to reflect Location 2's data. Different locations show different counts.

Tester:

Date:

Pass & Fail & Notes:

TC-027 Dashboard/Diagnostics/AI — No Fake Count

OWNER

1.

Check the sidebar badges for Dashboard, Diagnostics, and AI Copilot

' Expected

These items show no badge number (previously showed hardcoded 12, 3, 4 respectively).

Tester:

Date:

Pass & Fail & Notes:

verify customer field and closed jobs load

TC-028 Customer Dropdown — With Customers

OWNER / MANAGER

1.

Switch to a location that has customers (e.g. Location 1)

2.

Click "+ New Job Card" or open the Create Job Card form

3.

Observe the Customer field

' ExpectedCustomer field shows a dropdown with "— select customer —" and all registered customers listed alphabetically.

Tester:

Date:

Pass & Fail & Notes:

TC-029 Customer Field — No Customers (Fallback)

OWNER / MANAGER

1.

Switch to a location with no customers (e.g. Location 2)

2.

Open the New Job Card form

3.

Observe the Customer field

' ExpectedCustomer field shows a free-text input with placeholder "Customer name". User can type any name to create the job card.

Tester:

Date:

Pass & Fail & Notes:

TC-030

Closed Jobs Tab Loads Without Error

OWNER / MANAGER

1.

Navigate to Job Cards

2.

Click the "Closed Jobs (n)" tab

' ExpectedClosed Jobs tab loads cleanly. No red error banner "Load error: column closed_jobs.shop_id does not exist". Closed jobs for the active location are listed (or "no closed jobs" if none).

Tester:

Date:

Pass & Fail & Notes:

8. Sign-Off & Summary
