

Expired Trial Plan Gate

Test Procedure

Version 1.0 | Date: 2026-06-17 | Product: Redlined1

Objective

Verify that after a 7-day trial expires, the plan gate locks all modules except Dashboard, Settings, and Plans & Gates. Confirm that an active trial account retains unrestricted full access.

Pre-Flight Checklist

- & You have access to the Supabase Dashboard SQL Editor
- & You have a test email address ready (e.g. testexpired@redlined1.com)
- & redlined1.com is deployed and accessible in a browser
- & You are NOT logged in as your main owner account during these tests

Step 1 — Create the Test Account (one-time setup)

- Go to Supabase Dashboard !' Authentication !' Users !' Invite User
- Enter email: testexpired@redlined1.com and a test password
- Confirm the profile row exists — run in SQL Editor:

```
SELECT id, plan, trial_ends_at FROM public.profiles
WHERE id = (SELECT id FROM auth.users
            WHERE email = 'testexpired@redlined1.com');
```

Expected: row exists with plan = 'trial' and trial_ends_at set ~7 days from signup.

Step 2 — Expire the Trial

Run this SQL in Supabase !' SQL Editor:

```
UPDATE public.profiles
SET plan = 'trial',
    trial_ends_at = now() - INTERVAL '1 day'
WHERE id = (
    SELECT id FROM auth.users
    WHERE email = 'testexpired@redlined1.com'
);
```

Then verify the update:

```
SELECT u.email, p.plan, p.trial_ends_at
FROM auth.users u
JOIN public.profiles p ON p.id = u.id
WHERE u.email = 'testexpired@redlined1.com';
```

Expected: trial_ends_at is in the past (yesterday's date or earlier).

Step 3 — Log In as the Expired Test Account

- Open a private / incognito browser window
- Navigate to redlined1.com !' Sign In
- Enter credentials for testexpired@redlined1.com

Step 4 — Verify Module Lock-Down

Click every sidebar item and mark the result in the tables below.

SHOULD BE ACCESSIBLE (3 modules):

Module	Expected Result	Pass?
Dashboard	Opens normally — data is visible	[]
Settings	Opens normally — can edit branding	[]

SHOULD BE LOCKED (21 modules — expect upgrade prompt):

Module	Expected Result	Pass?
Customers	Shows upgrade gate / prompt	☐
Vehicles	Shows upgrade gate / prompt	☐
Appointments	Shows upgrade gate / prompt	☐
Job Cards	Shows upgrade gate / prompt	☐
Time Tracking	Shows upgrade gate / prompt	☐
Maintenance Schedules	Shows upgrade gate / prompt	☐
Inspections	Shows upgrade gate / prompt	☐
Estimates	Shows upgrade gate / prompt	☐
Repair Orders	Shows upgrade gate / prompt	☐
Technicians	Shows upgrade gate / prompt	☐
Parts	Shows upgrade gate / prompt	☐
Invoicing	Shows upgrade gate / prompt	☐
Payments	Shows upgrade gate / prompt	☐
Communication	Shows upgrade gate / prompt	☐
VIN Decode	Shows upgrade gate / prompt	☐
DTC Lookup	Shows upgrade gate / prompt	☐
Diagnostics	Shows upgrade gate / prompt	☐
AI Copilot	Shows upgrade gate / prompt	☐
Reports	Shows upgrade gate / prompt	☐
Labor Guide	Shows upgrade gate / prompt	☐

Step 5

—

**Verify
Active
Trial
Still
Has
Full
Access**

- 5a. Open a second incognito window
- 5b. Log in as your main owner account (active trial or pro)
- 5c. Click every sidebar module — all should open normally

Pass criteria: No lockouts on the active account. Every module is accessible.

Step 6 — Reset the Test Account (Cleanup)

Restore the test account to an active trial for future test runs:

```
UPDATE public.profiles
SET trial_ends_at = now() + INTERVAL '7 days'
WHERE id = (
  SELECT id FROM auth.users
  WHERE email = 'testexpired@redlined1.com'
);
```

Pass / Fail Sign-Off

Tester Name: _____

Date Tested: _____

Result:

& PASS & FAIL

Notes:

If FAIL — document which modules were incorrectly accessible and file a bug report.
